It is a University with a distinctive academic profile, blending in itself commitment to rural ethos and a modern spirit. It has 37 Post-Graduate Departments of Studies in the Faculty of Arts, Commerce, Education, Law, Science & Technology, distributed in 09 different schools of P.G Studies. The University has 81 affiliated colleges and 03 constituent colleges under its jurisdiction spread over two districts, Shimoga and Chikmagalur. It also has one Post-Graduate Centre at Kadur. Jnana Sahyadri, the main campus is in the lap of lush green, picturesque locale providing the right ambience for University Education. Indeed, Kuvempu University is a place that one would love to pursue academics and research. The main buildings of the University have been constructed on a small hillock, thus blending naturally with the landscape. The campus sprawls over an area of 230 acres. It is located at Shankaraghatta at a distance of 28 kms away from Shimoga town, the district head-quarter and 275 kms, from Bangalore, the well-known IT center and the state capital of Karnataka. The campus is only 2 kms from the magnificent Bhadra Reservoir across the river Bhadra, one of the important lifelines of the area.

ABOUT THE DEPARTMENT

The Department of Mathematics was established in the year 1975 as a part of University of Mysore and in 1987 it became an integral part of Kuvempu University. It has been harnessing precious human resources for the overall development of society through the pursuit for excellence in the area of Mathematical Sciences. The Department has awarded 50 Ph.Ds, 25 M.Phil., degrees and more than 350 research papers have been published in reputed N/I Journals. At present, 24 research scholars registered for Ph.D and thrust areas of research are Contact, Kahler, Finsler manifolds, Fluid dynamics and Boundary layer theory.

OBJECTIVES OF THE CONFERENCE

The main objective of the conference is to promote mathematical research and to focus the developments in differential geometry and fluid mechanics along with their applications. The conference aims to provide ideal platform for the young researchers throughout the world to interact with senior scientists, to exchange their views and ideas and to initiate possible scientific collaboration in different domains. The programme will consists of plenary invited talks as well as contributed presentations in different technical sessions.
